✉ Email | 🖥 Github | 🔗 LinkedIn | ▶ Introduction Video

Fullstack Developer with 3 years of experience specializing in React, Next.js, Node.js, Express, PostgreSQL, and Tailwind CSS. Frontend-focused and passionate about building websites from scratch, creating clean and intuitive UI that balance design with functionality. A problem-solver who's detail-oriented, analytical, and creatively driven beyond code. Built a fully custom website for a client from the ground up and previously worked as a Junior Web Support for a U.S. company, managing WordPress integrations and analytics. Trained in the fundamentals of web development through Fullstack Academy powered by the University of North Florida.

Experience

Web & Brand Assistant — CleanTint USA | 2020 | *Remote*

🔗 Clean Tint USA
🔗 Brand Ambassador

- **Tools:** Wix CMS, Website Management, Content Updates, Branding & Marketing
- Assisted in managing and maintaining CleanTint USA's Wix-based website, updating layouts, product pages, and content through the CMS.
- Ensured the site remained visually consistent, user-friendly, and aligned with brand standards.
- Supported basic SEO improvements and content optimization.
- Later promoted to **Brand Ambassador**, representing and promoting the company's product line online.

Freelance Web Developer — Carpet Cleaning Website | 2022 | *Remote*

- Designed and developed a fully custom website for a local carpet cleaning business from the ground up
- Built and deployed the site using **React** and **Tailwind CSS**

- Integrated a functional contact form using **EmailJS** for real-time submissions and client notifications
- Optimized layout and content for better readability and user conversion
- Set up the domain and configured deployment for live hosting
- Helped the client gain new customers through the website, improving their online presence and lead generation

Junior Web Support — Olly Olly | 2024 - 2025 | *Remote*

🔗Olly Olly

- Provided **technical support** and troubleshooting for client websites to ensure smooth performance and accurate deployment
- Collaborated with developers and project managers to **audit and migrate thousands of WordPress sites** to new hosting environments
- Configured **DNS records**, integrated **Google Analytics** and **Google Search Console** for SEO and traffic tracking
- Resolved issues across multiple departments and assisted with client inquiries
- Worked in an **Agile/Scrum environment** using **Jira, Slack, and HubSpot** for project coordination and task management

Phil Strats — Freelance Web Developer | 2025 | *Remote*

🔗Phil Strats

- Built a full consulting and article platform from scratch using **React, Next.js,** and **Tailwind CSS**
- Developed a **dynamic markdown-based article system** with automatic routing and category filtering
- Implemented a **newsletter system** via **Buttondown** and a **contact form** with **EmailJS** for direct inquiries
- Optimized for **SEO**, adding alt text, keyword tags, and detailed meta descriptions
- Integrated **Google Analytics** and **Search Console** for performance tracking
- Deployed through **Netlify,** ensuring responsive design and fast load times

Education

University of North Florida — Fullstack Academy (Coding Bootcamp) | 2021 - 2022

🔗UNF
🔗Fullstack Academy
🔗Certificate

- Certificate in Fullstack Web Development
- Studied JavaScript, React, Node.js, Express, PostgreSQL, HTML, CSS, and Git through hands-on projects
- Built a capstone e-commerce application featuring full CRUD functionality, a shopping cart system, and responsive UI
- Received career coaching and portfolio development support focused on real-world developer readiness

---
