SUMMARY

Fullstack Web Developer specializing in building fast, responsive, and SEO-optimized websites from scratch. Experienced in React, Next.js, REST APIs, Node.js, and modern frontend development. Background in client technical support, analytics integration, deployment, DNS management, and WordPress troubleshooting. Known for autonomy, problem-solving, and delivering end-to-end web solutions.

TECHNICAL SKILLS

- Frontend: React, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS
- Backend: Node.js, Express, REST APIs, PostgreSQL
- Tools & SEO: Git, GitHub, Vercel, Netlify, Railway, WordPress, DNS Configuration, Google Analytics, Google Search Console, On-Page SEO

PROFESSIONAL EXPERIENCE

Web Support Specialist

Digital Marketing Agency | 2024 – 2025

- Provided technical support and troubleshooting for WordPress websites, ensuring seamless site functionality and fast issue resolution.
- Installed and customized WordPress themes, utilizing no-code and low-code tools to meet client requirements and improve user experience.
- Managed site launches, including DNS configuration, migrations, and go-live processes.
- Integrated Google Analytics and Google Search Console to track site traffic, user behavior, and SEO performance.
- Collaborated in an Agile/Scrum environment using Jira, Slack, and HubSpot to support efficient task management and project execution.

Web Developer

Freelance | 2025

- Designed, developed, and deployed a full blog platform using modern web development practices.
- Implemented comprehensive on-page SEO, including semantic HTML, alt text, structured data, keyword optimization, and meta descriptions.
- Integrated Google Analytics and Google Search Console to monitor traffic and search visibility.
- Built responsive, mobile-first layouts focused on fast load times and clean user experience.
- Managed the project end-to-end: planning, development, testing, deployment, and performance optimization.

PROJECTS

Portfolio Blog — emmanagano.com

- Designed and developed a personal portfolio blog showcasing projects, experience, and interactive UI components.
- Built using React, Next.js, and Tailwind CSS with a clean, responsive layout.
- Implemented custom components such as a chatbox UI, theme toggles, animations, and project demos.
- Optimized for performance, mobile responsiveness, and accessibility.

Markdown-Based Blog Platform

- Built a custom blog system that loads article content from markdown files.
- Implemented category filtering, dynamic routing, and responsive layouts.
- Added on-page SEO optimizations and integrated analytics for performance and engagement tracking.

EDUCATION

Fullstack Academy — Coding Bootcamp

United States | 2021 – 2022
